EUROMIX MTP GMBH – GLOBAL SUPPLIER OF COMMERCIAL VEHICLE BODIES

As an owner-managed family business, we have been active in the commercial vehicle market for more than 40 years.

In the meantime, we have built up a very good reputation with our commercial vehicle bodies in the European region and successfully positioned the Euromix MTP brand in the market.

As a medium-sized company, we are able to adapt optimally to changing customer needs and offer you, our customers, maximum added value.

Convince yourself of our extended range of services compared to our competitors. We also look forward to welcoming you as our customers and hope you enjoy reading our brochure.

Denis Omeragic
CEO

A handwritten signature in black ink, which appears to read "Denis Omeragic". The signature is fluid and cursive, with a long horizontal line extending from the end.

EUROMIX MTP – WE INTRODUCE OURSELVES

Our specialty is the development, production and marketing of construction and commercial vehicle bodies. With the name Euromix MTP, we stand for high-quality solutions – from the conception to the finished construction vehicle – be it a truck mixer, dump truck, mixer trailers or concrete pumps.

Worldwide, more than 200 customers from various market segments trust us – because our way of working is convincing.

Thanks to 40 years of experience and expertise in this field, our products are robust, durable and reliable.

The transparent production processes and short delivery routes make our work effective and comprehensible for the customer.

From small productions to large quantities, we can offer you an individual service.

Everything from one source is our principle.

Fast ways and short delivery times as well as cost reduction by very good material competence and waste reduction with best goods quality – this is our biggest priority.

OUR ADDED VALUE FOR YOUR SUCCESS!

THE HIGHEST STANDARDS OF WORKMANSHIP AND DESIGN

- ✕ Euromix to go „Immediately available vehicles from our inventory“.
- ✕ Direct sales - vehicles according to customer requirements
- ✕ Highest flexibility in meeting customer requirements
- ✕ Everything from a single source - commercial vehicles & bodies
- ✕ Service - services for the highest demands
- ✕ Fair prices / financing

LIGHTWEIGHT

HEAVY DUTY

DUMPER

DUMP TRUCKS FROM 10 TO 20 M³ SQUARE OR SEMICIRCULAR TROUGHS FOR EVERY APPLICATION.

EUROMIX dump trucks combine a large transport volume with optimized external dimensions. This results in the highest possible payload with a low dead weight. Our steel dump trucks are designed for the toughest applications. They are wear-optimized and insensitive to cracking.

The low center of gravity ensures very good road holding and the best driving characteristics even on the most difficult terrain.

High tipping and lowering speeds in conjunction with increased tipping stability are ensured by the EUROMIX hydraulics adapted to efficiency and safety requirements. Optimized discharge of bulk materials is also guaranteed by the large tilt angle of our tipper series.

Additional safety is provided by the reinforced sides and bottom surfaces, which are made of Hardox steel.

OPTIMIZE YOUR TIPPER!

To make everyday work more practical and, above all, safer, we offer you several options and extras for your tipper. Whether hydraulic flap, camera systems or various stowage options.

Variant	Heavy Duty	Lightweight	Dumper
Material	HARDOX 450	HARDOX 450/500	HARDOX 450
Bottom thickness	8 mm	5 mm	5 mm
Wall thickness	6 mm	5 mm	5mm
Hydraulic pump	Penta/Hyva		
Tilt cylinder	Penta/Hyva		

ACCESSORIES FOR TIPPER BODIES

Stand out from the rest!

We offer various optional accessories for tipper bodies in order to be able to adapt your product to your wishes. You can also request individual equipment directly with one of our sales representatives.

Do not hesitate and get your custom product!

HARDOX®

Hydraulic flap

Electrical or mechanical cover

Spare wheel holder

Grain slider

Hydraulic folding underride guard

Foldable mechanical underride guard

Toolbox

Fire extinguisher

Aluminum fender

Stoker for asphalt

Side deflectors

Scissor-type tilt stabilizer

Ascent steps to the tipping bridge

3-SIDE TIPPER

Our **3-sided tippers** are optimized for wear and tear in the toughest applications. A low center of gravity ensures very good road holding and ideal driving characteristics, even on the most difficult terrain!

The EUROMIX hydraulics, which have been adapted to efficiency and safety requirements, ensure a high tipping and lowering speed in connection with increased tipping stability.

The large angle of inclination of our tipper series also guarantees an optimized discharge of the bulk materials. Additional safety is provided by the reinforced sides and bottom surfaces, which are made of Hardox steel.

3-SIDE TIPPER

Capacity	3 - 18 m³
Material	HARDOX 450
Bottom thickness	5 mm
Wall thickness	4 mm
Hydraulic pump	Penta/Hyva
Kippzylinder	Penta/Hyva

ACCESSORIES FOR 3-SIDE TIPPER

Stand out from the rest!

We offer various optional accessories for tipper bodies in order to be able to adapt your product to your wishes. You can also request individual equipment directly with one of our sales representatives.

Do not hesitate and get your custom product!

Various crane superstructures

Electrical or mechanical cover

Aluminum fender

Grain slider

Foldable mechanical underride guard

Hydraulic folding underride guard

Ladder

Wedges

Folding lashing eyes

Toolbox

Fire extinguisher

SWAP SYSTEMS

Maximum flexibility and utilization for your fleet!

The quick-change system allows the driver to change the body in a matter of minutes. The hydraulic power is provided by the vehicle engine via a pump and can carry up to several tons, depending on the model of the change system.

The body height is not changed due to the low-set design and no intermediate frame, with only a negligible reduction in the payload of your vehicle.

The change system increases the flexibility and efficiency of commercial vehicles and allows companies to use their vehicle fleet more efficiently and reduce downtime to a minimum.

SWAP SYSTEMS

With our hydraulic changing system, we enable you to quickly, easily and safely change different superstructures such as:

- Concrete mixer
- Dump truck
- 3-side tipper

TIPPER TRAILER UP TO 27M³ LOAD VOLUME

SQUARE OR SEMICIRCULAR TIPPERS FOR EVERY APPLICATION.

EUROMIX dump trailers combine a large transport volume with optimized external dimensions. Our steel dump bodies are designed for the toughest applications. They are wear-optimized and insensitive to cracking.

The low center of gravity ensures very good road holding and the best driving characteristics even on the most difficult terrain!

High tipping and lowering speeds in conjunction with increased tipping stability are ensured by the EUROMIX hydraulics.
